

New or updated information is available from [USDA ERS](#).  
This update covers Monday, March 29, 2010 to Friday, April 2, 2010

### **RICE YEARBOOK DATA TABLES**

U.S. rice production, supply, disappearance, trade, and price data. Includes state acreage, yield, and production data; US. and world price series; and program statistics. Contains world supply and use estimates as well.

Released Tuesday, March 30, 2010

See <http://usda.mannlib.cornell.edu/MannUsda/viewDocumentInfo.do?documentID=1229>

### **ORGANIC PRODUCTION**

Organic farming has been one of the fastest growing segments of U.S. agriculture for over a decade and all 50 States in the U.S. have some certified organic farmland. ERS collected data from USDA-accredited State and private certification groups to calculate the extent of certified organic farmland acreage and livestock in the United States. Data are presented at both the national and State levels for over 40 commodities. Data updated in March 2010 include the number of certified operations, as well as certified acreage and livestock, by State and by commodity, for 2006-08.

Released Monday, March 29, 2010
