FEED GRAINS DATABASE

Interactive database that contains statistics on four feed grains (corn, grain sorghum, barley, and oats), foreign coarse grains (feed grains plus rye, millet, and mixed grains), hay, and related items. Tables previously published annually in the Feed Yearbook are available and updated continuously as data are added to the database. Custom queries also allow users to retrieve historical data.

Released Tuesday, July 21, 2009

See <http://www.ers.usda.gov/Data/FeedGrains/>

WHEAT DATA

This data product contains statistics on wheat - including the five classes of wheat: hard red winter, hard red spring, soft red winter, white, and durum - and rye. Includes data published in the monthly Wheat Outlook and previously annual Wheat Yearbook. Data are monthly, quarterly, and/or annual depending upon the data series.

Released Tuesday, July 21, 2009

See <http://www.ers.usdagov/Data/Wheat/>

U.S. CARROT STATISTICS

U.S. and State data on acreage, yield, production, price, and value for fresh and processing carrots. Additional statistics include supply and disappearance, per capita use, price indexes, shipments, arrivals, U.S. exports and imports by country, usual planting and harvesting dates, agricultural chemical use, world production, area, and trade, and more.
