Dr. John Boyd, Professor and Extension Weed Scientist, University of Arkansas
Cooperative Extension Service

Dr. John D. Hopkins, Assistant Professor and Extension Urban Entomologist,
University of Arkansas Cooperative Extension Service

Dr. Rebecca McPeake, Extension Specialist - Wildlife, University of Arkansas
Cooperative Extension Service

Dr. Stephen Vann, Assistant Professor and Extension Plant Pathologist, University of
Arkansas Cooperative Extension Service

Preface

This manual provides information for the Arkansas commercial pesticide applicator wishing to become certified in Classification 4 – Ornamental, Tree and Turf Pest Control – and the noncommercial pesticide applicator wishing to become certified in Classification 9 – Ornamental, Tree and Turf Pest Control. To become a certified applicator in the desired category, a candidate must pass both a general standards exam and pass an examination based primarily on the material presented in this manual and (Circular 6) Arkansas Pest Control Law (Act 488 of 1975, as amended). Information covered in the general standards examination is contained in “A Guide for Private and Commercial Applicators: Applying Pesticides Correctly.” Refer to (Circular 6) Arkansas Pest Control Law (Act 488 of 1975, as amended) for specific requirements for Classification 4 and 9. The Arkansas State Plant Board administers the examinations. Up-to-date study materials can be obtained from the Arkansas State Plant Board, #1 Natural Resources Drive (P.O. Box 1069), Little Rock, AR 72203-1069, phone (501) 225-1598. Additional study information may be obtained from the University of Arkansas Cooperative Extension Service, the pesticide label, current publications on the subject, pesticide distributors and manufacturers.

Acknowledgments

Information accumulates from direct observations, scientific literature and anecdotes from others. Information from these sources blurs together quickly, and consequently, unique ideas are rare in society. Credit for sources of information on ornamental and turf pest control and management must go to Land Grant University extension and research workers in the areas of entomology, horticulture, plant pathology, and weed science who continually work to maintain and update ornamental and turf pest management information. In addition, thanks go to pest control industry workers who hold training sessions nationally, regionally, and locally where information is disseminated among the experienced and provided to the inexperienced, the Environmental Protection Agency whose personnel molded modern training and influenced the need for national uniformity in training requirements, and also to state regulatory personnel who cooperate with universities and industry and who strongly emphasized the importance of training.

This training material has been adapted from commercial applicator certification training manuals for ornamental and turf pests developed by the Oklahoma Cooperative Extension Service, Division of Agricultural Sciences and Natural Resources, Oklahoma State University; Texas Agricultural Extension Service, the Texas A&M University System; and University of Nebraska Cooperative Extension, University of Nebraska - Lincoln.

Special thanks go to Jim Criswell, Extension Pesticide Coordinator, Gerrit Cuperus, Extension IPM Coordinator, Ken Pinkston, Extension Entomologist, Richard Price, Professor, Entomology, Don Arnold, Survey Entomologist, Janette Jacobs, Assistant Extension Plant Pathologist, Sharon von Broembsen, Extension Plant Pathologist, Mike Schnelle, Extension Horticulturist, Mark Andrews, County Extension Horticulture Agent, Mike Kenna, Extension Turfgrass Specialist, Joel Barber, Assistant Professor, Turfgrass, Douglas Montgomery, Extension Assistant, Turfgrass, Randy Taylor, Extension Assistant, Agricultural Engineering, Willard Downs, Associate Professor, Agricultural Engineering – all with Oklahoma State University – and Loren Bode and Stephen Pearson, Agricultural Engineering Department, University of Illinois; Mark A. Matocha, Extension Program Specialist, and Don L. Rennie, Assistant Professor and Extension Specialist, Texas A&M University, Texas Cooperative Extension; Clyde L. Ogg, Extension Educator - Pesticide Education, and Dean Herzfeld, Coordinator, Health, Environmental and Pesticide Safety program, University of Nebraska Cooperative Extension; and George N. Agrios, Department of Plant Pathology, University of Florida for their kind permission to adapt their respective manuals.

Further acknowledgements go to Jeffrey F. Derr, Weed Scientist, Virginia Tech, for his information on landscape fabrics for weed control, and to Lisa M. Williams-Whitmer, Margaret C. Brittingham, and Mary Jo Casalena, College of Agricultural Science, Pennsylvania State University Cooperative Extension, and the Arkansas Game and Fish Commission for their information and help in preparing the goose management sections.

Table of Contents

	Page No.
Ornamental Pest Management	5
Introduction to Ornamental Pest Management	7
Cultural Management for Ornamental Plants	10
Diseases of Landscape Ornamentals	19
Insects and Mites Affecting Ornamentals	28
Ornamental Weed Control	57
Vertebrate Pests (Ornamentals)	71
Calibration of Commercial Pesticide Application Equipment (Ornamentals)	77
Pesticide Use Problems (Ornamentals)	97
Selected Ornamental References and Study Material	107
Ornamental Glossary	110
Turfgrass Pest Management	119
Introduction to Turfgrass Pest Management	121
Turfgrass Management	122
Turfgrass Diseases	128
Turfgrass Insects	135
Turfgrass Weeds	147
Vertebrate Pests (Turf)	161
Pesticide Application	166
Selected Turfgrass References and Study Material	177
Turfgrass Glossary	179

The pesticide information presented in this publication was current with federal and state regulations at the time of printing. The user is responsible for determining that the intended use is consistent with the label of the product being used. Use pesticides safely. Read and follow label directions. The information given herein is for educational purposes only. Reference to commercial products or trade names is made with the understanding that no discrimination is intended and no endorsement by the Cooperative Extension Service is implied.
